more than 40 species
in Bohinj

**TEMA LETOŠNJEGA FESTIVALA
SO DIVJE ORHIDEJE / THE TOPIC OF THIS
YEAR'S FESTIVAL ARE WILD ORCHIDS**

Družina Orhidej (Kukavičevk) je obsežna skupina raznolikih cvetnic, ki v Bohinju cvetijo od konca aprila do avgusta od doline do visokih gora.

Zato predstavljajo ljubiteljem zanimiv izziv in vabilo za številne sprehode v naravo.

Orchids belong in an extensive family of diverse flowers that blossom in Bohinj from the end of April to August, in the valley as well as in the mountains. Therefore, they are quite an interesting challenge and invitation for walking and hiking in nature.
